**We are campaigning for the preservation of the  
collections and future development of the Museum.**

The following statement has been issued by

**THE TYPE MUSEUM TRUST**

*“The trustees of the Type Museum recognise the concern expressed among its community of friends and well-wishers regarding the future of the Museum, and wish to make it clear that, although it has been necessary to close the Museum for legal reasons, the trustees, staff and other responsible bodies all remain committed to the Museum's well-being. Careful consideration of the issues involved takes place continuously as part of the normal activities of the Museum. Because these discussions are continuing, it is not possible to determine the specific resolution to which they will come. Until the completion of these discussions, any conclusions drawn by those not taking part are necessarily premature and speculative, and could be prejudicial to their outcome.*

*The trustees welcome the present public interest in the Museum and acknowledges the depth of support elicited, but they also hope that credence will be reserved for those officially appointed and legally entrusted with the duty of safeguarding and preserving the Museum and its collections.”*

NICOLAS BARKER Chairman of the Trustees 2.06.2006
